

The artist Eliezer Weishoff took the idea of the Seven Species representing Tu B'Shvat, which is also the birthday of the Knesset, and incorporated it into the sculpture together with the Menorah, the symbol of the State and of the Jewish people in general.

It is not easy to take an idea and turn it into a piece of art.

Try and think of what kind of statue you would create to express the connection between Tu B'Shvat and the Jewish people.

Draw a sketch of it here
