

## Tahor LaHashem Seal

Hello there, curious archaeologist!

What a mess- there's a mound of soil here with lots of broken pieces of all kinds of things. Ooo this looks interesting- what is it? And what's this...?

There are objects that were marked in the Temple with a stamp reading "Pure to G-d", such as the jugs of pure oil used to light the Menorah. One of those jugs was found by the Hasmoneans in the Hannukah story. I hope that we find a rare stamp here! find here the 7 vessels with seal  
Let's get working, let's start looking for a stamp.
